How to Save Money.

These times when living expenses have increased from thirty to fifty per cent, it is unusual to hear of a standard remedy being offered at half price.

Yet that is the way L. M. Buehler, the popular druggist is selling Dr. Howard's celebrated specific for the cure of dyspepsia and constipation. In addition to selling a fifty cent bottle, containing a month's treatment of sixty doses, for 25 cents, he gives his personal guarantee with every bottle he sells or refunds the money if it does not give satisfaction.

This unusual offer has brought hundreds of customers to his store in the last few weeks, yet out of the many bottles of Dr. Howard's specific he has sold, but one customer has asked to have the money returned. This was done without any questions, although L. M. Buehler does not think the remedy could have been given a fair trial.

Doctor's bills can be saved by the use of Dr. Howard's specific for the cure of dyspepsia and constipation, and by taking advantage of this special half price introductory offer, our readers can save half the regular price of the specific.

Do not let this opportunity pass to obtain a standard fifty cent remedy at half price. Remember that Druggist L. M. Buehler will refund your money if Dr. Howard's specific does not cure.

Chrysanthemum Show.

Cashtown should be rechristened Chrysanthemum town. When that town is in full bloom with beautiful mums it doesn't look like any sordid spot devoted to the Almighty cash. The beautiful flowers give it an atmosphere and aesthetic surrounding that cash can never give. In almost every yard can be seen stalks as high as the human and topped with the big graceful heads, and the beautiful gives the place a distinguishing touch.

The fourth annual chrysanthemum show was the greatest show ever held. The number of flowers almost doubled in number from the year before, or to be exact the collection numbered 530 flowers as against 22 of last year, and they were as large and of as great variety. The chance of the Reformed

church was one bank of mums to be raved over by visitor after visitor.

The ladies served refreshments in tent on the church lawn which was liberally patronized as well as the new feature of a bazaar. The attendance was larger than ever before, visitors coming from all parts of the county, and beyond. Yes there was some cash about when the show was over, almost twice as much as a year ago, just \$158.91.

A Lost Dog.

A liberal reward will be paid by Edward S. Plank for the return of his beagle hound to his home on Gettysburg R. F. D. 7. It is white and brown, with two brown ears, a small black and brown spot on the side.

The great southpaw of the Athletics of the American Baseball League, Eddie Plank, is disconsolate. It has nothing to do with ball out is all on account of a dog. Shortly after his arrival home at the close of the season after helping to make thousands of fans half crazy over ball, he was sent word that he was to be made a present of a beagle hound, a valuable dog and a great hunter. The dog arrived on Saturday night after dark at the station at Gettysburg and Eddie conveyed it home after dark and put it in the barn after dark, and while Eddie was sleeping off visions of hunting and slaughter of game, the dog eat his way out of the barn after dark and when light came he was missing. The great southpaw has searched the county over in more curved ways than he can pitch a ball but the beagle hound won't be found and Eddie would like to hunt before the season is over.

An English Author Wrote:

"No shade, no shine, no fruit, no flowers, no leaves—November!" Many Americans would add *no freedom from catarrh*, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh, and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It is undoubtedly America's Greatest Disease—Catarrh.

Band Concerts.

The Citizens Band will give the first of a series of winter band concerts on Wednesday evening of next week, Nov. 21 in the Court House. Everyone who enjoys good music should attend and help along the Band boys. Admission same as last winter, 15 cents and 10 cents for children.

RECIPE EASILY PREPARED, AND MANY SWEAR BY IT

Many of Our Citizens Speak Well of the Home Prescription Which Helped Them to Health.

Mix the following by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist has the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming backache, bladder weakness and urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906, since when all like leading newspapers of New York, Boston, Philadelphia, Pittsburgh and other cities have made announcements of it to their readers.

A Square Deal

Is assured when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate woman and children. Not a drop of alcohol enters into their composition. A much better agent is used both for external and internal use, and the medicines are perfectly pure and free from any kind of coloring. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antivenereal, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heartburn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or private organs. Even in its curative cases it will yield to this sovereign remedy its life-useful properties. In chronic catarrh of the nasal passages, it is well made taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Marsh Remedies. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

FUN WITH THE PROFESSOR.

Erudite Teacher Deceived by Conscienceless Student.

A well-known professor remarks that the passion for any science may make a man hopelessly narrow, in a way. As an example he cites the case of an elderly professor in Middletown, Conn., whose love for philology was so excessive that it frequently led him to disregard the broader principles of language in his minute searches for the particles hiding an ordinary English word to its Aryan or Sanskrit ancestor.

Once a student thought to have a bit of fun at the learned professor's expense. Assuming an air of great modesty, he said:

"Doctor, I've been thinking a great deal of late about the derivation of the word 'Middletown.' What is your idea of it?"

The professor was a bit taken back. "Really," he stammered, "I—er—really, young man, that is a subject that will require much reflection. May I ask whether you have chanced upon anything that would throw any light on the question?"

"It is my firm belief, sir," responded the student, with great gravity, "that Middletown is derived from Moses."

"Dear me, dear me!" exclaimed the guileless professor. "And pray, sir, how do you derive Middletown from Moses?"

"Very easily, doctor," replied the joker: "by dropping 'oses' and adding 'iddletown.'"—Lippincott's Magazine.

WARNINGS OF NO AVAIL.

Sinner Went on Evil Way Despite the Manifestations.

This curious tale of old-time spiritism is taken by De foe from Baxter's (1615-1691) "Historical Discourse on Apparitions." "There is now in London an understanding, sober, pious man, oft one of my hearers, who has an elder brother, a gentleman of considerable rank, who having formerly seemed pious, of late years does often fall into the sin of drunkenness. He often lodges long together here in his mother's house, and whenever he is drunk and has slept himself sober, something knocks at his bedhead, as if one rapped on the wainscot. When they remove his bed it follows him. Besides other loud noises on other parts where he is, that all the house hears, they have often watched him and tied his hands lest he should do it himself. But his mother declared that she had seen his shoes under the bed taken up and 'nothing visible to touch them.' The drunken sinner refused, in spite of these solemn warnings, to abandon his evil ways."

Lindy's Select Patronage.

It was during the time of the Spanish-American war. An officer of a Massachusetts regiment, carrying under his arm a bundle of soiled linen, called at the home of a colored woman living on the outskirts of Jacksonville, who had made quite a reputation for good laundry work among the soldiers.

"Does yo' belong t' de Fir Makland?" Lindy was asked.

"No."

"To de Hund'ed-an-fifty-fif' Indee any?"

"No."

"T'hd Pennsellvany?"

"No."

"Twen'y-second Ohio?"

"No!"

"Wale, yo' all clar outen here; I so kep' private wash-lady by dose fo' regiments!"

Caught Mother, Too.

A little girl went with her mother to see a baptizing which was being conducted at a lake a short distance from her home. She watched with great interest while the men cut a big hole in the ice. It being winter, and when the preacher took one of the candidates for baptism by the arm and led him down into the water and immersed him, the little watcher, thinking no doubt, that they were all to be treated in like manner, turned and fled to the house. A short time later that her mother, who had been baptized, came up to the house dripping wet and was astonished by the following from the little one:

"Well, mamma, they caught you, didn't they?"—Judge.

How to Light a Fire.

Most people when setting a fire lay the wood flat, criss-cross over the paper in the bottom of the grate, but let them try placing the wood sloping from the sides of the grate to the center. This forms a funnel for a free passage of air, and as the flame travels up the stick more quickly than it does across the result is that fewer pieces are required, and the fire burns up more brightly and in half the time that it usually takes, says Woman's Life. Then when placing a lump of coal on the fire if you wish it to last a long time lay it with the grain of the coal running across, as the flame travels more slowly across than upward.

Removal of the Stomach.

The entire stomach was first successfully removed by Schlecter, of Zurich, in 1897. B. Vassallo, a surgeon of Argentina, reports having now performed 17 similar operations, and considers the gravity of these operations no argument that need be made. Four months after the last removal, in all of this operation, the patient was in excellent health, with no inconvenience except the necessity of eating small and hot little at a time.

An American Eagle.

A son of Rev. Albert Hollinger of Reading township found a large American eagle in corn field, having been shot and wounded by Mr. Millhimes a day or two before. D. B. Bosserman, of East Berlin, took the eagle to George W. Miller, the York naturalist, who pronounced it to be a bald eagle of the American species. He said the bird was less than three years old and that the species was getting very rare and that the bird of Mr. Hollinger was one of the finest specimens he had ever seen. It weighed 17 pounds and was as large as they ever get, measuring 7 feet 10 inches from tip to tip of wings and had claws several inches in length. It was strong enough to carry off a small child and could have put up a good fight with any man. The eagle will be stuffed by Mr. Miller.

The Future of the Airship.

"It may be trite, but it is none the less true," says William A. Baldwin, the celebrated aeronaut, in "Recreation" for November, "to say of the airship, as we have so often said of the bicycle and the automobile, 'It has come to stay.'" What has been done in the United States in the last year alone is enough to convince me that practical navigation of the air has arrived.

"Some idea of how important a position aeronautics occupies in the world to-day may be gained by following the press of the world. Hardly a day passes that does not record a flight in some part of the world, government experiments to perfect the airship for purposes of war, the organization and practical exposition by clubs of amateur aeronauts of the feasibility of this subject for sport, and so on indefinitely."

Criminal Government.

Absurd as it may seem, the citizens of San Francisco were not even permitted to clean their own streets at private expense when the outrageous negligence of the "robber government" drove them to that expedient. Not only were honest merchants compelled to pay tribute for the granting of their just rights, not only were all municipal departments exploited in the interests of the criminals in office, not only was vice protected as a source of revenue to officers of the law, but, growing all other infancy, vicious amusements where children were corrupted were under government protection. The editorial announcements of Kennan's articles points out, "When all the costs of a criminal government of the cities of the United States are counted, this moral cost will be appreciated for what it surely is—the most appalling of all. It is not the mere robbery of a generation of men; it is the lowering of the vitality of a civilization." From George Kennan's article on "Criminal Government" in the November McClure's Magazine.

"I don't think so," answered the other. "I have never heard of his having appendicitis, and there have been no process servers hanging about his place."

"Any dissatisfaction on the canal?" wired the government.
"Yes," was the prompt answer; "none of the dredger crew struck a game Saturday night, and they rung in a cold deck on him."

MARSH CREEK SETTLERS

ORGANIZED ONE OF THE FIRST LITERARY SOCIETIES

One of the Original Members was a Congressman, Governor and United States Senator.

George R. Powell, curator and Librarian of the Historical Society of York County sends the Chairman the following brief account he has found of one of the earliest literary organizations in this part of the county.

"The Franklinton Literary Society founded at Marsh Creek, near the site of Gettysburg, in 1793, was one of the earliest organizations of its kind in the original area of York County. Its membership was composed of the leading citizens. Following are the names: William Miller, William Reed, William Waugh, Walter Smith, John Foster, John Ramsey, John Lintin, John Porter, John Agnew, John Cunningham, John Morrow, Jeremiah Morrow, James Thompson, James Reed, James Brice, Samuel Knox and Samuel McNaire.

This Society held four stated meetings yearly. Every member was required to prepare a dissertation on some "useful and suitable subject, excepting Divinity." The society seems to have developed among the early settlers in that region, a talent for public discussion. Several members afterwards held high positions in the county and state government. Jeremiah Morrow, one of the original members of the society, moved to Ohio in 1794 and in 1803 became the first representative in Congress when Ohio became a state. He was afterwards chosen governor and represented that state in the United States Senate for a period of six years."

Lafean Pension Bill.

Congressman D. F. Lafean has prepared the following soldiers' widow's pension bill, which he will seek to have made a law at the next Session of Congress.

An Act—Granting Pensions to the Widows and Minor Children of Certain Officers and Enlisted Men Who Were in the Military or Naval Service of the United States in the Civil War With Mexico.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled:

That if any person who served 90 days or more in the army or navy of the United States during the late civil war, or 60 days in the war with Mexico in Mexico, on the coasts or frontier thereof or enroute thereto, and who has been honorably discharged therefrom, has died or shall hereafter die leaving a widow, her name shall upon the proof of her husband's death and her legal title as his widow under such rules and regulations as the secretary of the interior may prescribe, be placed upon the pension roll at the rate of \$12 per month, to commence from the date of the filing of her application therefore and to continue during her widowhood, in the bureau of pensions under this act—provided that such widow shall have married said officer or enlisted man prior to the passage of this act. She shall also be paid two dollars per month for each child of such officer or enlisted man in her care and custody while under 16 years of age, and if no widow survive, or in case of the death or remarriage of such widow, such pension shall be paid to the surviving child or children of such officer or enlisted man, from the date of filing application therefore under this act, until such child or children reach the age of 16 years.

Section 2.—That widows and minor children who are now receiving pensions, or who may hereafter become entitled to pensions under existing laws, or whose claims are pending in the pension bureau, may, by application to the commissioner of pensions, in such form as he may prescribe, showing themselves entitled thereto, receive the benefits of this act: Provided that no person shall receive more than one pension for the same period.

Section 3.—That the recognized attorney in the prosecution of any claim under this act shall not be entitled to receive for his fee in excess of five dollars, the amount fee to be prescribed upon the allowance of the claim by the commissioner of pensions as he may deem equitable and to be paid upon his direction by the pension agent who pays the pension by deduction from the pension due.

Thy 16 year old son of Mr. and Mrs. Wm. Jacobs of Berwick township, accidentally shot himself in the ankle while hunting in Pigeon Hills. The ball lodged in ankle bone and has been extracted.

Thy old horse of the late Martin Hill of New Oxford, had to be euthanized to end his sufferings, caused by being taken out the state at night by unknown parties and over ridden.
